QIAN HU'S PROFIT RISES 9.8% IN Q3

 **ORNAMENTAL** fish business Qian Hu has announced a 9.8 per cent rise in its third-quarter net profit to \$1.7 million, from \$1.5 million a year ago.

This was helped by continued efforts to widen the reach of its distribution of ornamental fish and related accessories worldwide.

Qian Hu's revenue rose 1.1 per cent to \$23.9 million for the quarter which ended Sept 30, from \$23.6 million last year.
